Private Treaty October - Calving Bred Females

These bred females are from the heart of our herd and we are offering them for sale privately on a first-come, first-served basis. October-born calves don't do well with our northern winters, so this is an opportunity for you to add some top genetics to your herd.

Females were ultrasounded on Feb. 24. Calving dates are figured on 279 days gestation. The fetuses were too young to determine gender of the calf.

Please call, email or message us on Facebook for more information or to view the cattle.

We started DNA profiling our entire calf crop in 2012 to increase the accuracy of our EPDs. The heifer calves that met our standards were incorporated into our herd as replacement heifers. Through the Red Cow Rally program, we profiled the older cows so all females were DNA'd.

Today, our herd is stacked with generations of proven females adding even more reliability to their genetic predictions.

Top Dollar Angus is a program that genetically verifies those animals that will excel in the feedlot, on the rail and on consumers' plates.

Foot and Leg Scoring Reference

CLAW SHAPE Reference: Shape (primarily curl) and unevenness of the claw set.

FOOT ANGLE Reference: Strength of pastern, depth of heel and length of foot.

REAR LEG SIDE VIEW Reference: Angle measured at the front of the hock.

BIF DISPOSITION SCORING GUIDELINES

At Koester Red Angus, we record disposition in the pasture based on the cow's behavior when tagging and weighing her calf. We rarely have a cow that scores above a 3.

Score 1 – Docile. Mild disposition. Gentle and easily handled. Stands and moves slowly during processing. Undisturbed, settled, somewhat dull. Does not pull on headgate when in chute. Exits chute calmly.

Score 2 – Restless. Quieter than average, but may be stubborn during processing. May try to back out of chute or pull back on headgate. Some flicking of tail. Exits chute promptly.

Score 3 – Nervous. Typical temperament is manageable, but nervous and impatient. A moderate amount of struggling, movement and tail flicking. Repeated pushing and pulling on headgate. Exits chute briskly.

Udder Suspension			Teat Size		
Score	Description	Example	Score	Description	Example
9	Very Tight		9	Very small	
7	Tight		7	Small	
5	Intermediate/moderate		5	Intermediate/moderate	
3	Pendulous		3	Large	
1	Very pendulous, broken floor		1	Very large, balloon-shaped
